

**Urban Health and Environment Learning Project**

*We want to help you help your community*

**Agreement to Collaborate**

Thank you for taking the necessary steps in saving our communities. UHELP is an awareness, referral and informational source to the residents of Wilmington's Eastside, Northeast, Southbridge, and Route 9 corridor communities north of Interstate 295. Our primary mission is to actively address health and environmental concerns with residents and as we promote these issues, we recognized that existing programs are effectively operating. Along with your help our communities can continue to grow positively. UHELP would like to establish a linkage with your agency and/or program to better serve our community and provide all resources that may be of some assistance to the target communities.

*In completing the information below, UHELP will collaborate in the following ways:*

- *Displayed your announcements or notices on our website ([www.urbanhelp.org](http://www.urbanhelp.org))*
- *Add your programs website as a resource link on the UHELP site*
- *Publish notices and announcements in our quarterly newsletter*
- *Offer free referrals to your program*
- *Solicit your expertise to engage residents in forums, workshops, screenings and other meetings*
- *UHELP will send notices to all persons requested to be listed on our e-mail bank.*
- *Provide funds, if available to organizations that may enhance the quality of life for Wilmington residents.*
